# logo meaning

## the heart

The heart serves as a reminder to us all (board members, staff, donors, volunteers and clients) that we are here for each other. Every person has value. People are at the heart of what A New Leaf does. The heart is a symbolic representation of the people we serve. It's what motivates us.

## the leaves

The two leaves connected remind us that we need to be connected to each other. None of us were meant to live alone. In relationship with each other we find purpose, healing and hope for the future. The two leaves and two colors represent the idea of "turn a new leaf." This is the essence of the brand story.

## the font

The type styles mimic the rounded feel of the logo mark. We also use lower case letters because caps would move the brand to a more corporate feel. The lower case has more of a people-centered, friendly, approachable design that represents people of all ages.

# primary logo

To ensure legibility, always keep a minimum clear space around the logo. This space isolates the mark from any competing graphic elements like other logos or body copy that might conflict with, overcrowd, or lessen the impact of the mark.
