Family Support Services

A New Leaf's Housing & Shelter programs provide stable housing solutions that help individuals and families achieve safety, stability, and long-term housing security.

Family Dynamics

These programs help families strengthen relationships, improve household stability, and heal from the effects of stress, trauma, and difficult life experiences. Households receive professional guidance, education, one-on-one support, rehabilitative services, and connections to community resources.

Household Finances

Programs may include financial assistance, career advising, entrepreneurial support, financial education, and other services that help participants address immediate challenges while planning for the future. By helping households strengthen financial skills and pursue economic opportunities, these services create pathways toward greater security and self-sufficiency.
